

Marine Life Spans

Many fish take several years to reach their peak reproductive age.

- *Anae – 4 years old
- *U'u (Menpachi) – approx. 8 years old
- *Moi – 7 years old
- *Omilu – 5 years old
- *Ulua aukea – 11 years old

Size Matters – even a little difference counts

One 8.5 inch ‘Ū‘ū

makes as many eggs as

Five 7 inch ‘Ū‘ū

Age matters - older fish make more babies

One 6 yr old 'ōmilu
(27-inches)

makes as many eggs as

Eighty-six 2 yr old 'ōmilu
(14 inches)
